# Babysitting Emergency Contacts For Canada

## Non-Emergency Numbers

Non-emergency police and fire numbers will vary from city to city; each police department will have their own local number. There is no centralized number to redirect you, so you will need to Google to find the number for your city.

## Kids Help Phone: 1-800-668-6868

This is a special number that kids in Canada can call at any time for free, confidential help with whatever they are facing. Their volunteers provide counseling to kids who feel stuck with no one else to turn to, or if they just need to be redirected to the correct service.
