

Babysitting Emergency Contacts For the US

Emergency number: 911

Poison Control: 1-800-222-1222

Non-Emergency Numbers

In the United States, non-emergency numbers are typically local. In some areas, you can use the number 311 for non-emergency or city services. In other areas, there is no national number to connect you to the correct department. So you will need to Google "(your city name) non-emergency police number" to find the appropriate number for your situation.

Miscellaneous Numbers

In some states, calling #77 will allow you to reach the highway patrol from a mobile phone.
